

Beam Development, LLC

A limited liability company

Multnomah County Commissioners
City of Portland
1221 SW 4th Avenue
Portland, OR 97204

Dear Commissioners:

Beam Development is a locally owned company that focuses on community based developments. We have been active in Portland real estate development for over the last 15 years. We believe strongly in supporting the local economy and therefore feel that the public market represents an amazing opportunity for area residents to engage and sustain a thriving and robust local food economy.

It is clear to us that the public market is truly one of the missing links in the downtown core of Portland. We whole heartedly support the effort to create this market and to again raise the awareness of local healthy food as a cornerstone of our culture.

I look forward to participating in any way I can in making the James Beard Public Market at the west end of the Morrison Bridge a reality.

Sincerely,

Brad Malsin
